INTRODUCTION TO ENGINEERING

What is engineering and what do engineers actually do? Could you be an engineer?

This project is designed to introduce to the wonderful world of engineering. You will create a visual display that:

- 1- Defines engineering
- 2- Describes at least 10 different types of engineering
- 3- Lists 5 specific ways that engineers have changed the world

Check Edmodo and our team website for links and more information!

Your visual display is due Friday January 17th. Be creative!
